Fax: (866) 675-7309
Email: msteiner@grandmashousecac.com

Summary of services:

Grandma's House is a nonprofit organization which provides a coordinated, multiagency approach to the investigation, intervention, and treatment of child sexual and physical abuse. The children's advocacy center is a place where children who are victims of abuse and their families can obtain support while dealing with their feelings and emotions about the abuse and the investigative process that lies ahead. Follow-up support and advocacy is provided for the child and their non-offending family. This service includes referral to other service providers located within the community.

The children's advocacy center (CAC) offers a child friendly environment which is designed specifically for children. Instead of describing their abuse to multiple adults, they speak with a trained forensic interviewer in a comfortable environment and the interview is videotaped to minimize the number of times they must detail their trauma. The videotaping also increases the accuracy of information provided to professionals investigating the case. Children who are in need of a medical exam are seen by a specialized Forensics Pediatric Sexual Assault Nurse Examiner in a child friendly environment onsite at the children's advocacy center.

The children's advocacy center provides education regarding child abuse awareness and prevention to schools, churches, businesses, and other community organizations.

Children participate in a variety of educational activities. They have healthy meals and snacks, and enjoy playing indoors and outdoors in a safe setting. Most children are between the ages of three and five years old. We have a curriculum that is real similar to one a kindergarten classroom would have. We also have ongoing assessments throughout the school year.

Head Start focuses on school readiness. We not only focus on the children, but the family as well. We have monthly meetings and weekly activities to engage the families. We also strive for our students to regularly attend, just as if they were in kindergarten.

KIWANIS CLUB OF HARRISON

PO Box 983
Harrison, AR 72601

Summary of services:

Kiwanis clubs, located in 80 nations, help their communities in countless ways. Each community's needs are different, so each Kiwanis club is different. By working together, members achieve what one person cannot accomplish alone. When you give a child the chance to learn, experience, dream, grow, succeed, and thrive, great things happen.

Service footprint: Service is at the heart of every Kiwanis club, no matter where in the world it's located. Members stage nearly 150,000 service projects and raise nearly US \$100 million every year for communities, families, and projects.

A family of servant leaders: Kiwanis clubs focus on changing the world by serving children, one child and one community at a time. To do this, many clubs also sponsor a Kiwanis family club—K-Kids for primary school children; Builders Clubs for adolescents; Key Clubs for teens; CKI clubs for university students and Aktion Clubs for adults living with disabilities—to reach more people and have a greater service impact on their communities.

Summary of services:

The Northwest Tobacco Education Network project is a program under the direction of North Arkansas Partnership for Health Education (NAPHE) and works under a grant from the Tobacco Prevention and Cessation Program (TPCP) of Arkansas Department of Health to implement Center for Disease Control and Stamp Out Smoking initiatives. Primary among these are:

- ◆ Prevent initiation among youth and young adults--Teen Summits
- ◆ Promote quitting among adults and youth--Quit Lines
- ◆ Eliminate exposure to secondhand smoke--Policy Promotion
- ◆ Identify and eliminate tobacco-related disparities among population groups--Rural populations, women and infants, Veterans, homeless, low income, lower levels of education.

The Northwest Tobacco Education Network presents evidence based data showing how tobacco use and secondhand smoke affect health outcomes in rural areas including Boone, Carroll, and Newton Counties. The Project seeks to reverse social norms so that trending portrayals of tobacco use in advertising, film, and television are reversed. The Northwest Tobacco Education Network project also works to increase awareness of the Arkansas Tobacco Quit Line to help the over 70% of tobacco users who say they want to quit, get the help they need to stop using tobacco, and to reduce the personal and societal burden of cancers and a variety of chronic conditions such as diabetes, heart and cardiovascular issues, oral and gum related issues, and COPD.

In addition, the Northwest Tobacco Education Network Project works to increase awareness of tobacco usage in Boone, Carroll, and Newton Counties, to provide tobacco education materials for adults and youth, to encourage medical personnel talk about tobacco use with their patients, and to promote healthy lifestyles.

Your good health is important to us. If you want to quit or you know someone who does, contact the Arkansas Tobacco Quit Line at 1-800-QUIT-NOW(1-800-784-8669).
